Evening Brief

Date: Thursday August 24, 2017

Weather Summary

High Risk for Gusty Winds/Drier Air Idaho/Wyoming on Friday

Hot / Near Record Temperatures Sunday/Monday for Nevada into Southern Idaho

Gusty winds with low RH will persist over eastern Idaho on Friday. High Risk for Gusty Winds/Drier Air has been issued for much of Idaho on Friday. An upper level disturbances will also continue to move across ID/WY with isolated thunderstorms possible over the far northeast border of Idaho and western Wyoming on Friday.

Otherwise, drier weather will move into much of Nevada, the AZ Strip and Utah through the weekend and push into ID/WY by Saturday. Only a few isolated storms may pop up at times over eastern Utah.

Strong high pressure builds in across the Western Great Basin, with near record heat this weekend, spreading eastward into early next week before the return of lightning.

Preparedness Levels

Great Basin	3
National	5

Great Basin Fire Activity (from Irwin): Moderate Activity

New Fires and Acres: 26 fires for 560.9 acres; 14,219 acres large fire growth; 1 new large fire

Resources:

- Crews: 8 T1 IHCs in GB: 7 Committed, 1 Day Off.
 - GBCC has committed an estimated 61+ Type 3, 4, 6 engines.
 - 1-T1 and 5-T2 helicopters are available in GACC.
-

Great Basin Fire Potential Summary

Fuels across much of the area slowly dried and recovered recently from the monsoonal moisture earlier in the summer, with fire danger values at or below normal for the time of year, with the exception for parts of Idaho where above normal fuel dryness poses the biggest concern. **The mountains of Central Idaho will be the most likely area for new large fires due to recent lightning and gusty winds.**

Prolonged drier and much warmer weather will return to the Great Basin this weekend through next week rapidly drying fuels again, and resulting in holdovers in areas that received recent lightning.

We continue to have a Great Basin Fuels and Fire Behavior Advisory in effect for Nevada, Idaho and Utah, available at the following link:

https://www.predictiveservices.nifc.gov/fuels_fire-danger/GB_Fuels_and_Fire_Behavior_Advisory.pdf
